

## Operations Team Leader

Advanced Atomization Technologies, a Parker Aerospace and GE Aviation Joint Venture, located in Clyde, N.Y., is seeking candidates for an Operations Team Leader (Production Supervisor) position.

### Key Responsibilities Include:

- Supervise team members in a value stream to ensure, safety quality, delivery and cost standards are maintained at the highest level.
- Work with value stream partners to maximize both internal and external customer satisfaction
- Promote and support a High Performance Team environment through leadership and execution of problem solving.
- Maintain and report out on key value stream metrics
- Work closely with your fellow Operations Leaders to create a unified manufacturing team that supports the overall business objectives.

### Required Qualifications:

- Bachelor's Degree in a related technical or business discipline, or a two-year degree with a minimum of 6 years manufacturing leadership responsibility
- Must possess a high level of mechanical aptitude.
- Minimum of four years of manufacturing experience including extensive lean manufacturing process.
- Hands-on experience in the implementation of lean techniques including value stream mapping, 5S+Safety, single piece flow, and standard work.
- Must have a strong understanding of quality systems.
- Must demonstrate strong data collection and analysis capability.

Due to the Company's military contractor status, the applicant must be a U.S. citizen or a permanent resident of the United States, and must provide evidence of citizenship or immigration status upon applying for the position. Advanced Atomization Technologies, LLC is an equal opportunity employer and gives consideration for employment to qualified applicants without regard to race, color, religion, sex, sexual orientation, age, national origin, disability, protected veteran status, or any other consideration made unlawful by federal, state or local laws. ("Minority/Female/Disability/Veteran/VEVRAA Federal Contractor).
